## TOILET & URINAL CLEANER

Sustainable Earth

By Staples™

**Fast-acting toilet bowl and urinal cleaner formulated for daily use on your most challenging restroom issues**

### PRODUCT DESCRIPTION

Sustainable Earth by Staples™ Toilet and Urinal Cleaner (SEB71) has several advantages over conventional cleaners. It is a safe, versatile, eco-preferable\* product that does not sacrifice cleaning performance. It is a concentrated toilet bowl and urinal cleaner that dilutes at one ounce per fixture (toilet or urinal) in most cleaning situations. It is specially formulated to clean, remove stains, eliminate and neutralize urinal odors and brighten toilet bowls and urinals without the use of hydrochloric, phosphoric or oxalic acid. Sustainable Earth by Staples™ Toilet and Urinal Cleaner can be safely used daily on porcelain, porcelain enamel or stainless steel without etching or damaging them.

### FEATURES

- Contains no hydrochloric, phosphoric or hydrofluoric acids
- Thickened to cling to vertical toilet and urinal surfaces
- Removes calcium, magnesium and iron residues
- Instantly removes toilet and urinal soils from inside and outside of toilet and urinal bowls
- Effective on both oil- and water-based soils
- Will not etch toilet and urinal surfaces
- Versatile formulation eliminates unpleasant odors
- Low odor and no lingering or annoying smells
- Meets SEGC 114 Sustainable Cleaning Product Design Standard
- Add one ounce of SEB71 Toilet and Urinal Cleaner per toilet or urinal fixture

### PACKAGE SIZE

## Toilet & Urinal Cleaner

Available exclusively from:

**STAPLES** Advantage

### Physical Data

**Physical Form:** Clear, aqua liquid

**Odor:** Low

**pH:** 1.0-1.5

**Foam Level:** Low

**Shelf Life:** 2 years minimum in unopened container

**Freeze/Thaw Stability:** Do not freeze

**Phosphates:** None

**Solubility in Water:** Complete

### Usage Information

1. Apply solution to surface to be cleaned.
2. Allow SEB71 Toilet and Urinal Cleaner time to penetrate and disperse the soils.
3. Agitation with a bowl brush or swab may speed up the cleaning action.
4. Once soils are loosened, simply flush the fixture and wipe away the soil and water from the outside of the fixture.

Dispose of in accordance with applicable federal, state and local regulations.

### About Sustainable Earth by Staples™

Our exclusive eco-preferable\* line offers great ways to get the products your business needs and to lessen the impact on the environment. Every Sustainable Earth by Staples™ product meets our brand's highest environmental standards.

Plus, like all Staples® brand products, the quality is guaranteed. It's a real win-win for you — and the environment.

\*Compared to conventional cleaning products.

### Certification Definitions

Current environmental and sustainable standards are based on a process that may take a long time to complete. For cleaning products not included in the current environmental standards, Staples has adopted the SEGC 114 Sustainable Cleaning Products Design Standard. This industry-leading proprietary standard raises the bar by examining each product's innovation and identifying packaging and product prerequisites, as well as outlining preferred product testing methods.

The U.S. Environmental Protection Agency's Design for the Environment (DfE) program seeks to promote the use of institutional cleaners and maintenance products with improved environmental and human health characteristics. Products displaying the EPA DfE logo have been "Formulated in Partnership with EPA Design for the Environment Formulator Program." Visit [www.epa.gov/dfe](http://www.epa.gov/dfe) for more information.

This product is NSF Nonfood Compounds Program Listed (Formerly USDA Authorization of compounds to be used in meat and poultry plants). It is acceptable to use in inedible processing areas, and/or exterior areas of processing establishments.

All plastic containers used in packaging products display the Society of Plastics Industries' 3-sided triangular arrow to make recycling easier. The majority of our containers are readily recyclable and classified as 2:HDPE (High-Density Polyethylene), and some contain 25% post-consumer recycled plastic.
