## One Step™ Floor Cleaner and Restorer

A concentrated blend of both a cleaner and floor finish restorer. Produces a clean and rejuvenated floor when used with an autoscrubber or mop bucket system. No waiting for the product to dry. A thin coat of thermoplastic polymers is left on the floor surface during cleaning process. For best results, burnish floor after autoscrubbing to achieve maximum gloss. When use with mop and bucket, floor must dry before burnishing.

### Physical Data

Physical form: light blue  
Odor: light peach  
pH: 8.5  
Film color: clear and colorless  
Freeze/thaw stability: three cycles  
Shelf life: 2 years in original unopened containers  
Odor index: low

### Performance Data

Dilution ratio: 1:128  
Specular gloss (60°): 85 minimum when floor is burnished  
Burnish response: outstanding  
Slip resistance: UL listed and meets ASTM D2047  
Sediment: 0.08% By volume, maximum  
Solubility in water: complete  
Finish compatibility: excellent  
Recommended dilution: 1 ounce per gallon of cool water for both mopping and automatic scrubbing  
Mop buckets: 2 oz/gal water  
Heavy metal content: contains no zinc or other heavy metals
