

ODOR ELIMINATOR FRAGRANCE FREE

Sustainable Earth
COASTWIDE LABS · CORPORATE EXPRESS

**Fast-acting odor eliminator
designed to combat
your strongest odor issues**

PRODUCT DESCRIPTION

Sustainable Earth® Odor Eliminator (SE63) is a safe, versatile, environmentally responsible product that does not sacrifice performance. A non-staining odor neutralizer and deodorizer for use in a pump spray container. Soils and organic matter that feed unwanted odors can be removed and the unique odor controlling ingredients. It is effective against the toughest malodors in grease traps, drains, tile grouting, garbage disposals, dumpsters, portable toilets and other places where unpleasant odors are found. It can be applied like a cleaner, sprayed onto surfaces then wiped away.

FEATURES

- Highly concentrated to reduce waste and lower end use costs
- Instantly removes sources of odors
- Effective on both oil and water based odors
- Leaves no sticky or soapy residues to attract soils
- Versatile formulation eliminates unpleasant odors
- Low odor and no lingering smells
- Formulated with enzyme producing ingredients
- Fast-acting deodorizer and odor eliminator
- Meets SEGC 114 Sustainable Cleaning Product Design Standard

General Odor Control and Deodorizing: Add 1/2 to 1 ounce
of SE63 per gallon of water.

Trash Containers and Compactors: Add 2 to 4 ounces
of SE63 per gallon of water.

Extreme or Stubborn Odors: Add 6 to 8 ounces of
SE63 per gallon of water.

Physical Data

Physical Form: Clear, pink liquid

Odor: Pleasant

pH Range: 7.0 to 8.0

Foam Level: Low

Concentrated: Reduces package waste

Shelf Life: 2 years minimum in
unopened container

Freeze/Thaw Stability: Excellent

Phosphates: None

Solubility in Water: Complete

Certification Definitions

Current environmental and sustainable standards are based on a process that may take a long time to complete. For cleaning products not included in the current environmental standards, Corporate Express has adopted the SEGC-114 Sustainable Cleaning Products Design Standard. This industry-leading proprietary standard raises the bar by examining each product's innovation and identifying packaging and product prerequisites, as well as outlining preferred product testing methods. The following chart details the Sustainable Earth® cleaning products' environmental certifications to date.

The U.S. Environmental Protection Agency's Design for the Environment (DfE) program seeks to promote the use of institutional cleaners and maintenance products with improved environmental and human health characteristics. Products displaying the EPA DfE logo have been "Formulated in Partnership with EPA Design for the Environment Formulator Initiative".

Green Seal certification to GS-37 Environmental Standard is awarded only after rigorous evaluation, product testing and an extensive manufacturing process audit and plant visits. Products earning the Green Seal certification meet Green Seal's environmental standard for industrial and institutional cleaners based on their reduced human and aquatic toxicity and reduced smog production potential.

All plastic containers used in packaging products display the Society of Plastics Industries' three sided triangular arrow to make recycling easier. The majority of our containers are readily recyclable and classified as: 2:HDPE (High Density Polyethylene).
