CARPET SPOTTER

Sustainable Earth
COASTWIDE LABS · CORPORATE EXPRESS

High performance carpet spotter that removes the most difficult spot and stains

PRODUCT DESCRIPTION

Sustainable Earth® Carpet Spotter (SE67) is a highly effective all purpose, professional carpet spot remover for general spot removal. Specially formulated to remove wine, coffee, red Koolaid®, tea, urine, blood, Betadine® and other tough spots from all types of carpeting. Safe on 5th generation carpets. Leaves no soap or detergent residues and protects against re-soiling. Quickly removes all types of stubborn stains and spots including red and yellow oxidized stains.

FEATURES

- Removes all kinds of stains on all types of fiber including commercial and stain resistant carpets
- Uses the power of oxygen to help remove most common as well as difficult and stubborn stains
- Quickly eliminates red Koolaid®, Betadine®, red wine and blood stains
- Won't leave sticky residues to attract soils
- Eliminates carpet stains and odors caused by vomit, blood, urine, smoke and pets
- Formulated as ready-to-use
- Meets SEGC 114 Sustainable Cleaning Product Design Standard

Productivity in your hands.

Physical Data

Physical Form: Clear, colorless liquid

Odor: Low

pH Range: 5-7

Foam Level: Low

Shelf Life: 2 year minimum in unopened container when stored at <75 degrees F

Freeze/Thaw Stability: Excellent

Solubility in Water: Complete

Usage Information

Apply directly to the spot. Agitate gently. Blot using a clean white cloth, towel or microfiber cloth. Rinse with clean water, blot or extract until spot is removed. Note: Before using, test carpet for colorfastness in an inconspicuous area.

About Sustainable Earth®

A sustainable cleaning solution contains products that perform and have a reduced effect on the environment and human health. Corporate Express believes that a sustainable community should use its resources to meet current needs while ensuring adequate resources are available for future generations. These guiding principles motivated us to create our Sustainable Earth® line of products.

Certification Definitions

Current environmental and sustainable standards are based on a process that may take a long time to complete. For cleaning products not included in the current environmental standards, Corporate Express has adopted the SEGC-114 Sustainable Cleaning Products Design Standard. This industry-leading proprietary standard raises the bar by examining each product's innovation and identifying packaging and product prerequisites, as well as outlining preferred product testing methods. The following chart details the Sustainable Earth® cleaning products' environmental certifications to date.

The U.S. Environmental Protection Agency's Design for the Environment (DfE) program seeks to promote the use of institutional cleaners and maintenance products with improved environmental and human health characteristics. Products displaying the EPA DfE logo have been "Formulated in Partnership with EPA Design for the Environment Formulator Initiative".

Green Seal certification to GS-37 Environmental Standard is awarded only after rigorous evaluation, product testing and an extensive manufacturing process audit and plant visits. Products earning the Green Seal certification meet Green Seal's environmental standard for industrial and institutional cleaners based on their reduced human and aquatic toxicity and reduced smog production potential.

All plastic containers used in packaging products display the Society of Plastics Industries' three sided triangular arrow to make recycling easier. The majority of our containers are readily recyclable and classified as: 2:HDPE (High Density Polyethylene).
