Anchor™

TOP & UNDERCOAT SEALER

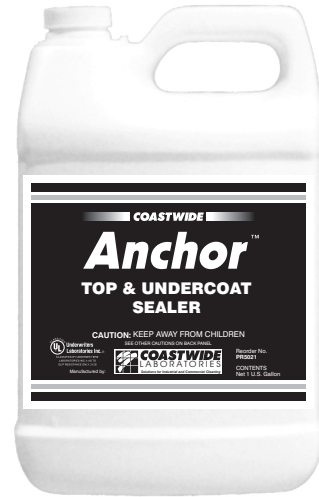

Top or Undercoat Sealer for Porous or Worn Floors

PRODUCT DESCRIPTION

Anchor™ is a specially modified water emulsion synthetic polymer sealer for terrazzo, concrete and other stone surfaces. This unique dispersion of acrylic polymers is carefully designed to obtain a balance of flexibility and hardness to enable the sealer and/or top finish coat to withstand the rigors of traffic on the floor. The chemical and water resistance of Anchor™ is outstanding. When other sealers fail to bond properly, Anchor™ will adhere to concrete, terrazzo and other stone surfaces including those with acid hardeners or alkaline conditioners. It is an outstanding sealer for resilient tile surfaces including vinyl, linoleum and vinyl composition floors.

SPECIAL FEATURES

- Superior adhesion characteristics.
- Provides a clear seal with no discoloration.
- Excellent water and chemical resistance.
- Low odor and mop drag.
- Prolongs time between strippings.
- Coverage 1000-2000 square feet per gallon.
- Resists acid hardeners and alkaline surfaces.
- Protects against soils, oils and grease.
- Prevents concrete dusting.
- UL listed as to slip resistance.
- Universally compatible with most finishes.

PACKAGE SIZES

PR5021	4 -1 gallon case
PR5025	5 gallon pail
PR5029	55 gallon drum

PHYSICAL DATA

Physical Form:	Milky white liquid.
Odor:	Sweet.
pH:	8.5 - 9.5.
Non-Volatile Solids:	16%.
Total Solids:	24%.
Film Color:	Clear.
Freeze/Thaw Stability:	Three cycles.
Shelf Life:	2 years in original unopened containers.
Odor Index:	Low.

PERFORMANCE DATA

Drying Time:	20-30 minutes.
Recoat Time:	30-40 minutes.
Specular Gloss (60°):	80 minimum.
UL Listed:	Classified by Underwriters Laboratories as to slip resistance only .212S.
Water Resistance:	Excellent (no white after 8 hours).
Detergent Resistance:	Excellent.
Adhesion:	Excellent, without cracking, powdering or peeling.
Removability:	Easy to remove with wax stripper.
Sediment:	0.08% by volume, maximum.
